

Employee Handbook

Nimbus Data Systems S.A. — Version 4.2 — Effective March 1, 2026

1. About the company

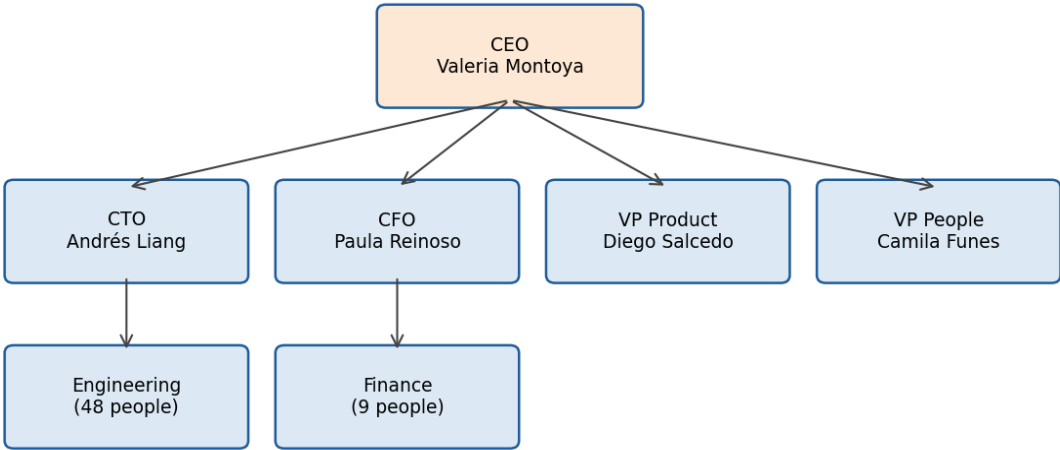

Nimbus Data Systems was founded in 2017 in Buenos Aires, Argentina, by Valeria Montoya and Andrés Liang. The company builds NimbusVault, an intelligent document management platform with semantic search capabilities for enterprises. As of the close of the first quarter of 2026, the company has 142 employees across three offices — Buenos Aires (headquarters), Bogotá, and Mexico City — plus 35% of staff working fully remotely from other countries in the region.

Our mission is to enable any organization to find and leverage its internal knowledge in seconds. The company has four core values: clarity above all, ownership mindset, technical curiosity, and radical respect.

1.1 Organizational structure

The executive team is composed of CEO Valeria Montoya, CTO Andrés Liang, CFO Paula Reinoso, VP of Product Diego Salcedo, and VP of People Camila Funes. Engineering, which reports to the CTO, is the largest department with 48 people.

2. Working hours and work arrangements

The workweek runs Monday through Friday under a flexible hybrid model: a minimum of 2 in-office days per week is required for employees living in cities with an office. Core hours, during which the entire team must be available, are 10:00 to 16:00 Argentina Time (ART). Outside that window, everyone organizes their own schedule freely.

Fully remote staff receive a one-time equipment stipend of USD 350 upon joining and a monthly reimbursement of USD 40 for internet connectivity.

2.1 Vacation and leave

Annual vacation days are granted based on tenure with the company, according to the following table:

Tenure	Vacation business days
Less than 2 years	15
2 to 5 years	20
5 to 8 years	25
More than 8 years	30

In addition to vacation, the company grants the following special paid leave:

Leave type	Duration
Birth or adoption (birthing parent)	120 calendar days
Birth or adoption (non-birthing parent)	30 calendar days
Marriage or civil union	10 business days
Moving (relocation)	2 business days
University exams	4 days per exam (max. 12 per year)
Bereavement (immediate family)	5 business days

Vacation must be requested through the Humand platform at least 15 days in advance and requires approval from the direct manager. Up to 5 unused vacation days may be carried over to the following year; they expire on March 31.

3. Compensation and benefits

3.1 Payroll

Salaries are deposited on the last business day of each month. Salary adjustments are reviewed twice a year, in the April and October cycles, alongside the performance review process. The annual performance bonus can reach up to 15% of annual salary for individual-contributor roles and up to 25% for leadership roles, subject to company results.

3.2 Current benefits

Benefit	Detail
Learning budget	USD 800 per person per year, can accrue for up to 2 years
Health coverage	Corporate plan Swiss Medical SMG30 (or local equivalent)
Gym / wellness	Reimbursement of up to USD 45 per month
Referral bonus	USD 1,500 per successful hire who stays beyond 3 months
Birthday	Day off, non-transferable
Extended parental leave	See section 2.1
Stock options	ESOP plan with 4-year vesting and a 1-year cliff

3.3 Expenses and per diems

Corporate travel expenses are submitted through Expensify within 30 days of the expense. Daily meal per diem caps are: USD 60 for regional trips and USD 90 for trips to the United States or Europe. Lodging is always booked through the Operations team; the per-night cap is USD 140 within Latin America and USD 220 outside the region. Any expense exceeding the caps requires prior written approval from the CFO.

4. Performance and professional development

The performance review cycle runs twice a year (April and October) and combines self-assessment, peer feedback, and manager evaluation. We use a 4-level scale: Developing, Solid, Outstanding, and Exceptional. Cross-team calibration takes place in committees led by the VP of People.

The probation period for new hires is 3 months, with a formal feedback conversation at the 45-day mark. The engineering leveling matrix (E1 through E6, plus the management track M1 through M3) is published in Notion and reviewed annually.

4.1 Promotions

Promotions are evaluated exclusively in the April cycle. To apply, the person must have spent at least 12 months at their current level and have the endorsement of their manager and a peer committee.

5. Code of conduct

Nimbus Data Systems maintains a zero-tolerance policy toward harassment, discrimination, and any form of workplace violence. Reports can be filed confidentially and, if desired, anonymously, through the ethics@nimbusdata.com channel or the secure form available on the intranet, managed by an independent three-member committee. Every report receives a response within a maximum of 5 business days.

Conflicts of interest (for example, participating in the hiring of a relative or holding investments in competitors) must be disclosed to the VP of People as soon as they are identified.

6. Offboarding and departures

In case of resignation, a notice period of 30 calendar days is requested for individual-contributor roles and 45 days for leadership roles. On the last day, an exit interview is held with People, and all equipment must be returned within 10 business days. Vested stock options may be exercised for up to 90 days after the departure date.

7. Internal tools

The official work tools are: Slack for communication, Notion for documentation, Linear for product and engineering project management, Humand for people management, and Google Workspace for email and files. Using personal accounts for work matters is prohibited by the Information Security Policy (document SEC-001).

This handbook is reviewed annually. Suggestions and questions: people@nimbusdata.com.
